

Why Replenish Nitric Oxide (N-O) with Approved Medical Solutions?

There are so many choices on the market for nitric oxide supplements. We believe in our approach to stimulating the production of N-O without the use of Arginine, Beet Root or Spinach.

It has long been known that the Arginine pathway is not efficient or effective for people over 40. It has also become well known that Beets and Spinach are HIGH in oxalates. We chose the highest N-O containing food as well as the lowest oxalate contributor..... **ARUGULA**. We also utilized L-5-MTHF (methyltetrahydrofolate) for those who genetically have trouble converting dietary nitrate.

For your patients with concerns regarding oxalates and kidney health or for your patients that have not done well on other N-O supplements (perhaps due to the need for MTHF) consider AMS. We recommend you to use ANY company's test strip or ours and see for yourself that our formula works.

We are available only through medical professionals.

We take great pride in EXCELLENT customer service.

We have over 30 years of providing therapeutic formulations to medical professionals.

Supplement Facts

Serving Size 2 Capsules Servings Per Container 30

	Amount Per Serving	% DV
Vitamin C (as Magnesium Ascorbate)	270 mg	300%
Thiamin (Thiamin Mononitrate)	60 mg	5000%
Folate (as L5-MTHF (Methyltetrahydrofolate))	100 mcg DFE	25%
Vitamin B12 (as Methylcobalamin)	50 mcg	2083%
Magnesium (as Magnesium Ascorbate)	84 mg	20%
Zinc (as Zinc Citrate)	5 mg	45%
Potassium (as Potassium Nitrate)	190 mg	4%
Proprietary Blend Potassium Nitrate, Arugula Extract (<i>Eruca sativa</i> , leaf), Hesperidin (<i>Citrus sinensis</i> , fruit peel)	510 mg	**

*Percent Values are based on a 2,000 calorie diet

*Daily Value (DV) not established

Other ingredients: Rice Hull and Vegetable capsule contains water and hypromellose.

Product Characteristics

Nitric Oxide is a signaling molecule. When it's created and released, this gas easily and quickly penetrates nearby membranes and cells, sending its signals. In seconds N-O signals arteries to relax and expand-which translates to improved circulation. **Poor circulation is often associated with a loss of energy, inability to perform sexually and declining exercise performance.**

Then you begin to develop aches and pains that over time can manifest into a specific disease. Research shows that the loss of Nitric Oxide may be responsible for many of these symptoms of aging and at the very root of cardiovascular disease.

The most reliable way to know if your levels of Nitric Oxide are insufficient is to use the 10 second test strip. Then recommend the Approved Medical Solutions N-O replenishment capsule and re-test in 90 minutes.

AMS Nitric Oxide Test Strips

The AMS Nitric Oxide Test Strips enables you to test your Patients's Nitric Oxide levels in seconds. This easy-to-use non-invasive saliva test is an ideal way to:

- 1) Engage patients on the importance of Nitric Oxide for overall health
- 2) Indicate whether patients have a need for Nitric Oxide supplementation
- 3) Validate AMS Nitric Oxide as an effective supplement by testing before and 90 minutes after a two capsule dose.

**Test your nitric oxide level in the morning before eating or taking our supplement.
Place a small amount of saliva into a teaspoon.**

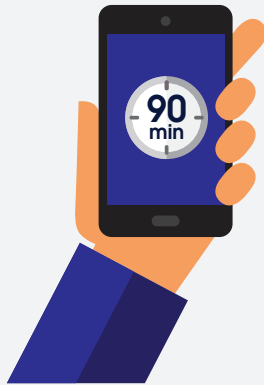

Step 1

Then place the pad side into the saliva. Wait 10 seconds and compare the strip with the N-O scale chart below. This is your starting level.

Step 2

Take 2 capsules of the Approved Medical Solutions Nitric Oxide (N-O) formula with water. Wait 90 minutes move to step 3.

Step 3

Validate your improvement by repeating the testing process in Step 1. Use the N-O scale chart below to witness your improvement.

“Healthy nitric oxide levels are foundational for healthy circulation, which in turn supports optimal sleep, GI tract function, and brain performance”
